

HCL AI Employee Assistant - Security Guidelines

Version: 2026.1

Department: IT Security

1. Password Policy

Passwords must contain at least 12 characters with uppercase letters, lowercase letters, numbers, and special characters. Passwords expire every 90 days and must not be shared with anyone.

2. Multi-Factor Authentication (MFA)

Multi-Factor Authentication is mandatory for VPN, email, and all company cloud applications.

3. VPN Usage

Employees working remotely must connect using the official company VPN. Accessing internal resources without VPN is prohibited.

4. Email Security

Do not open suspicious email attachments or click unknown links. Immediately report phishing emails to the IT Security team.

5. USB & External Devices

Only company-approved USB devices may be connected to company laptops. Personal storage devices are not permitted without IT approval.

6. Data Classification

Company information is classified as Public, Internal, Confidential, or Restricted. Confidential and Restricted information must never be shared outside the organization.

7. Incident Reporting

Any suspected security incident, malware infection, or unauthorized access should be reported immediately to IT Security.

8. Important Notes

Failure to follow security policies may result in disciplinary action. Employees must complete annual cyber security awareness training.
